EDUCATION

Delhi Public School Ghaziabad

June 2010 - May 2023

Ghaziabad (U.P.), India

Vellore Institute of Technology, Bhopal

Oct 2023 - May 2027 (Expected)

B.Tech in Computer Science Engineering

Madhya Pradesh, India

Grade - 8.43/10

INTERNSHIPS

Intern/Trainee

May 2026 - June 2026

Silver Leaf Solutions Pvt. Ltd.

Gurugram, Haryana

- Strengthened knowledge of Software Asset Management (SAM) and software licensing through hands-on training in software compliance, contract analysis, and procurement best practices, applying these concepts in practical exercises and case studies.
- Built a full-stack Next.js application with React, TypeScript, PostgreSQL, and REST APIs, implementing 8+ features including user authentication, profile management, and CRUD operations.
- Designed and implemented 6+ RESTful API endpoints, enabling efficient data exchange and reducing duplicate code through reusable backend architectural practices.
- Developed a responsive frontend with 10+ reusable React components, improving code maintainability and ensuring compatibility across desktop and mobile devices.

PROJECTS

*Apart from internships**

StockDataFetcher ([link](#)) - Stock Data Dashboard

- Developed a dashboard that integrates two APIs to fetch real-time stock data, including the opening price, closing price, day's high, day's low, and historical price charts.
- **Technologies Used:** Python, Streamlit, Pandas

CERTIFICATIONS AND SELF-STUDY

Online Courses: Computer Networks ([link](#)) , Introduction to Data Science in R ([link](#)), Python Programming, Financial Markets

Self-Study: C++, Financial Markets and Instruments, Game Theory

RELEVANT SKILLS AND INTERESTS

Languages: C++, Java, Python, HTML, JavaScript

Libraries & Frameworks: React, Node.js, Pandas, NumPy, Matplotlib, Streamlit, CSS, Bootstrap

Interests: Problem Solving, Competitive Programming, Actively participated in ACM-ICPC programming contests (2024, 2025)

RELEVANT COURSEWORK

- Calculus and Laplace Transforms
 - Data Structures & Algorithms
 - Operating Systems
 - Probability & Statistics
 - Object-Oriented Programming in C++
 - Advanced Java Programming
 - Differential Equations and Fourier Transforms
-
